Ain't None Beneath Me by Cruziken

Night time, it's pitch black (2 seconds)

Prime time to bounce back

My time don't kick back

Don't relax or think that

I've cut back or relasped

But I'm here again (9 seconds)

Blade my only friend

Prayed for pain to end

Paid for killing men

Made for spilling pens

Aid me God so when

They attack again

That I pack a ten

Loaded mind weapon

Explodes shit, deafons

These misconceptions

That my depression

Dampers Aggression

Hampers expression

Past ten, eleven! (22 seconds)

It's Armageddon!

Time to teach lessons

To fuck boys stepping

In the direction

Of her deceptions

Stop it, quit messing

Girl ain't confessing

Love so stop stressing

Shit's so repressing

Give others blessing

Why you distressing?

She ain't caressing!

So why you doing it man

Why you doing it

You ain't good enough

If you believe so

Stop acting so tough

And so naive bro

She said life is rough

That we agree so

I'm gone in a puff

Like and leave hoes! (45 seconds)

This Badger been freed

I'll slice off y'all knees

Can't catch up with me!
This blade my decree
To all beneath me
Aint shit beneath me!
Can't none defeat me!
Can't none delete me!
My love depletes me
Fuck that, unleash me!
Blade screams unsheath me!
From toes to my teeth
These hoes can't complete me! (1:05)

(The Beat Switches to Wisdom of Rage) I was only five when they set me on fire
My mission since is to make them retire
With my life on the wire
With my soul in the mire
With my mind in crossfire
From all these spineless liars

Now listen up!

Bustabeats gave me a chance To put you all in a trance Like I'm out west with Durant Breaking ankles with a glance Like I'm 13 with my hand Embarrassing the "stars" Murder all you meme rappers With just a verse from afar Or with just one of my bars They ask "He can go hard?" "Wait, his body is marred?" "Wait, his body is scarred?" Yes, indeed I am charred! Yes, my body has scars! Because I fought the good fight In a world with no light, When nothing was ours!

Now listen up!

Fear to lose ignites me Fear of death indites me Fear of love highlights me Fear to cry delights me Fear of pain excites me
I'm bussin out the gate
Knowing haters will hate
That we'll never be late
In our race to be great
Here to end the debate!
"I don't think he can rap"
It's Cruziken, not Cruz he can't!
Yes Cruz I am, not Cruz I ain't!
It's Cruziken without restraint
It's Cruziken without complaint
Just a jack of all trades
Just a master of blades
Azure knight without taint
Ain't nothing beneath me!!!
